

# ADVANCE-ENDO

## IADVANCE ENDODONTIC PROGRAM

### 6 WEEK PROGRAM

We specially curated this program for doctors who are looking for clinical exposure or want advanced rotary equipment to practice with.

This course will help you uplift your existing dentistry knowledge and skills and become proficient with the latest technology in endodontics, prosthodontics, and many other dentistry techniques so you can perform well at clinics.

### DIDACTICS

This Program is designed to provide students with basic knowledge and skills in all areas of dentistry. The program consists of both lecture and clinic components and provides an opportunity for students to learn from faculty members who are experts in their respective fields. The didactic is an important part of this Program, and helps to prepare students for their clinical rotations

### CLINICAL CASES

The program will provide participants with the opportunity to learn from experienced clinicians and to treat patients in a variety of clinical settings. Clinical cases will be allotted to participants at this Short term Dental Program, allowing them to gain first-hand experience in managing different types of dental cases.

### CERTIFICATES

Certificates Will Be Provided to the Participants upon Completion of this Program

## ABOUT US

The Academy of Advanced Endodontics (AAE-INDIA) is a private institution located in the heart of India's Garden City, Bangalore. The Academy was established with the aim of educating dentists in modern endodontics in order to provide excellent clinical care by updating their knowledge and improving their skills and competencies.

AAE-INDIA offers a wide range of short upskilling courses to dentists to enhance their skills and knowledge of the latest endodontic treatments and techniques, ensuring that candidates get the maximum benefit from the courses.
